

## Master of Landscape Architecture Distributional Electives

The following courses have been pre-approved as fulfilling the distributional requirements in their respective categories for MLA I and MLA I AP candidates. The list is not to be construed as limiting the courses that might be considered. If another course (GSD, FAS, HKS, or other) is proposed by a student as a distributional elective, approval can be given by the Program Director. **Approval must be part of registration and not *ex post facto*.**

*This list will be updated for spring term; please note that spring offerings may change from those listed here.*
